*SFFedCU may at our sole option pay or return debit (payment) transactions presented against insufficient funds and charge a fee for doing so if the checking account is not linked for overdraft protection to a share account or credit line with sufficient available funds or credit to cover the transaction. We can charge a fee each time an item is presented against insufficient funds (\$120.00 maximum per day per transaction type; \$360.00 maximum per day aggregate). We can charge a fee for paying everyday debit card purchase transactions against insufficient funds only if you opt in to the service. We do not permit ATM cash withdrawals against insufficient funds. Negative balances resulting from paid NSF items must be restored immediately, no later than 10 days. We will not pay NSF items if your checking account with us has been open fewer than 30 days, if your account does not receive regular deposits, if you are in breach of any agreement with SFFedCU, or if in our judgment you have had excessive overdrafts. Unless the checking account owner has arranged in advance to cover overdrafts via savings transfer or line of credit advance and has available funds or credit at the time an item is presented against insufficient funds, payment of items against insufficient funds is a service provided at the Credit Union's sole discretion and is never guaranteed.

**Please note that the Credit Union reserves the right to change the Schedule of Fees at any time and will notify you accordingly. All fees are assessed at the time of service or automatically deducted from your account. If you do not have a sufficient balance to cover the fee, the Credit Union may charge any of your accounts for any fee that is due.
